SO A RUSSIAN NEWSPAPER SAYS VERY PLAINLY.

American Demands and Threats "Need Not Particularly Alarm Either Europe or Asia"-Surprise That Authorities Permitted So Open a Declaration.

Special Cable Despatch to THE SUN. LONDON, Oct. 24.-Official information regarding the Far Eastern crisis is more ings. Assurance of peaceful intentions from both Russian and Japanese sources are so insistent as to suggest the attitude of opposing Powers on the eve of more than one great war in the past. The comparison may easily prove deceptive. The weight of opinion in European diplomatic circles, in fact, inclines to the belief that the struggle will yet be averted, temporarily at least.

It is increasingly significant that the attitude of the United States is everywhere studied with the keenest interest. It is frankly admitted, according to despatches with great anxiety the result of the diplo- | says matic communications, which it is known are passing daily between Washington, London and Tokio.

It is clear also that Russia recognizes that the United States will be at least inactively hostile to her cause in any conflict with Japan. The Russian Government is also trying to persuade itself that it can ignore the danger of any active defence of American rights in the Far East. In no other way can the following remarkable | Keep Names of All Except Those Attendutterance which the Novoe Vremya was permitted to make this week be interpreted.

"American statesmen realize the approaching danger of collisions with transoceanic Powers and therefore are insisting upon a rapid enlargement of their navy. At present this navy is, although considerable, not large enough to attain the objects desired and the Powers of the Old World are not compelled to reckon very seriously with the United States. Their real force is not very great. It is only when they possess a navy that will command the ocean separating the old from the new world that the Americans will be able not merely to proclaim their rights, but also to demand the recognition of them. This will not be soon, and in the meantime American demands and threats need not particularly alarm either Europe or Asia."

This is an undisguised declaration that American rights anywhere need not be respected because the United States is unable to defend them. No utterance could express more clearly or frankly the cynical unscrupulousness of the Russian policy. The wonder is that the Russian authorities allow it to be avowed so openly and that apparently they have no fear of the effect upon high spirited people of so flagrant and contemptuous a defiance.

It is interesting to note that Secretary of War Root while in London has not been reserved in the expression of his opinion that the United States should not hesitate to defend to the uttermost her treaty rights in the Far East.

Spectator" Says He Acted in Alaskan Case as a Conscientions Jurist.

Special Cable Despatch to THE SUN. LONDON, Oct. 24.-The English press continues to discuss freely the decision of the Alaskan Boundary Tribunal. It must be said that public opinion strongly sympathizes with the Canadian disappointment, and there is a disposition on the part of a considerable minority to question

the equity of the award. Some commentators, notably the Daily Mail, continue to indulge in disgraceful pacific, but that usually accurate barometer insinuations against Lord Alverstone of such situations, the Stock Exchange, These innuendoes are made in such a cowpersists in indicating the gravest forebod- ardly fashion that they can damage only their authors, but they serve to indicate an exasperation which is perhaps of sufficient importance to receive passing attention. LONDON DOCTORS REBEL.

ing Royal Family Out of Print?

Special Cable Desputch to THE SUN. LONDON, Oct. 24 .- The etiquette of the British medical profession absolutely forbids a practitioner from advertising himself. In this respect the medical etiquette is precisely the same as that of the bar. Both professions uphold this principle that legitimate professional men should not put themselves on the same plane as

The doctors of London, however, have begun to rebel against what they deem the carrying on of this idea to an intolerable stage. The ethical committee of the British Medical Association is trying to coerce its brethren to keep their names out of the newspapers except when they are attending a royal patient. This, of course, confines the prerogative to the very few who do not need advertising. The committee, however, not content with applying pressure to the doctors, has now resolved to send a circular to the London newspapers asking them not to mention the names of physicians in any connection except in case of those who are are in attendance on members of the royal family.

The doctors argue that this is tyranny, as barristers and lawyers, whose etiquette is the same, are always mentioned in connection with cases.

AMERICAN MURDERED IN CUBA. Minister Squier Asks Government to Make

an Investigation. Special Cable Desputch to THE SUN HAVANA, Oct. 24.-A number of American residents in Puerto Principe sent a telegram to Mr. Squiers, the United States Minister to Cuba, asking for protection. They complain that an American of the name of Murray, a hotelkeeper at Puerto Principe, was found stabbed to death in a cell at police headquarters. A negro, who was supposed to be insane, was in the same cell with the American. The American residents, however, suspect that there has been foul play of some kind, as no blood spots were found in the cell where the Ameri-

can and the crazy negro were confined. Mr. Squiers telegraphed back asking for full details of the affair. He has also asked Senor Zaldo, the Secretary of State and Justice, to investigate. This is the third American who has been murdered in Cuba this year. Mr. Murray, it is stated, was a

BRITAIN MOVES IN CONGO CASE.

ANNOUNCES HER BELIEF IN TRUTH OF CRUELTY CHARGES.

Calls on Powers Who Participated in the Berlin Treaty to Confer as to Methods of Reform-Trade Monopoly Was Granted in Violation of the Treaty.

Special Cable Despatch to THE SUN LONDON, Oct. 24.-The British Foreign Office yesterday issued a despatch in regard to the ill-treatment of natives and the existence of trade monopolies in the Congo State to the representatives of this Government accredited to the Powers which particinated in the treaty of Berlin, under which the Congo Free State was constituted

Taking into consideration the diplomatic language in which such documents are usually couched, this despatch must be described as very forcible. It refers to the debate in the House of Commons on May 20, when, it savs:

"It was alleged that the object of the Congo administration was not so much to care for the government of the natives as for the collection of revenue. This object was pursued by means of a system of forced lacor, differing only in name from slavery The demands upon each village were exacted with a strictness that constantly degenerated into great cruelty, and the men composing the armed force of the State were recruited from the most warlike of the savage tribes, who often terrorized their own officers, maltreated the natives and had no fear of punishment."

The despatch also refers to the fact that many cases of cruelty have been proved beyond the possibility of contradiction. It lays stress on what it calls "the most serious allegations" in regard to the system of administration; namely, that no efforts were made to fit the natives for industrial pursuits. It declares that the method of obtaining laborers was similar to that formerly applied to obtain slaves. Force was as much required now to take natives to a place of service as was formerly necessary to convey captured slaves.

The despatch quotes the British Consul as Boma and also the British officers in territory adjacent to the Congo Free State to show that "notwithstanding the obligations which were accepted under the Berlin treaty no attempt at any administration for the natives has been made, and the officers of the Government are devoting all their energy to the collection of revenue The Congo stations are shunned, the only natives seen being soldiers. The result is that neighborhoods which were populous a few years ago are now uninhabited, the natives averring that they have been driven from their homes by tyranny and ex-

The despatch then expresses the deep conviction of England that the charges are founded on truth. For this reason His Majesty's Government is of the opinion that it is incumbent upon the Powers who were parties to the Berlin treaty to confer and consider whether the Congo Free State has fulfilled its obligations and, if not, o secure the carrying out of the same The despatch asks for suggestions which might constitute a subject for reference to the Hague Arbitration Tribunal.

It also draws attention to the action of the Congo Freet State in establishing a trade mone; oly and restricting trade, in direct contravention to the principle of the open door provided for in the Berlin agreement.

APPLAUDS PROTECTIVE POLICY. Ernest A. Hamlyn Says It Will Soon Be Adopted in England.

MILWAUKEE, Oct. 24.-Ernest Augustus Hamlyn, a member of the Honourable Artillery Company of London, who is making a tour of the United States investigating the effects of the protective tariff upon the industrial classes of the country, arrived at the Hotel Pfister to-day. denies that he is the agent of Mr. Chamberlain, Mr. Hamlyn has nevertheless written a letter to the English statesman offering to subscribe \$5,000 of his private fortune to bring a delegation of English workmen to this country to investigate for themselves the industrial situation.

"We have no difficulty with the educated classes," said Mr. Hamlyn. "It is the people who cry out about the 'dear loaf and the small loaf' that are opposed to Mr. Chamberlain's policy, and I want them to be able to see what the protection policy has done for this country. The protection policy will soon be adopted in England, and we shall have a stone wall built and and we shall have a stone wall built about us as strong, or nearly so, as the one you have about this country.

"It may not become effective in England this year or next, but it will come, that is certain. We have a sample of this effect during the African war, and it was the greatest mistake when it was taken

"The protective tariff has made the United States and it is responsible for the undoing of England. As the Duke of York said recently: 'We must move forward a bit.' The English manufacturers of steel rails cannot pay the tariff and com-pete with the American manufacturer."

JANAUSCHEK THANKFUL.

Pleased at Virginia Harned's Gift-Says Her Condition Is a Sad One.

SARATOGA, Oct. 24.-Mme. Fransisca M. R. Janauschek, the venerable actress whose pitiful condition has of late caused much concern among her friends throughout the country, this afternoon dictated to her physician, Dr. J. E. Kelley, the following, to which she affixed her signature:

I am pleased beyond expression at the letter, suggestion and gift of 'irginia Harned and the interest which is being taken by the Morning Telegraph to relieve my financial and the interest which is being taken by the Monning Telegraph to relieve my financial condition and suffering. It came as a surprise to me when I thought the people had forgotten me. After thirty years of my best effort for the advancement of the drama my condition is, indeed, a sad one. I cannot believe that my life, given largely to the American stage, will be forgotten by the American people.

ROBERT W. WILCOX DEAD. Former Hawaiian Delegate to Congress Had a Romantic Career.

Special Cable Despatch to THE SUN HONOLULU, Oct. 24 .- Robert W. Wilcox former Delegate to Congress from Hawaii, died to-day of consumption. His death was unexpected, and was due to severe hemorrhages. Wilcox was the home rule candidate for Sheriff and was in the midst of an active campaign. Overexertion brought on hemorrhages. There is great mourning among the natives, with whom, owing to his Hawaiian blood, Wilcox was popular.

Wilcox's life was romantic. He was one of native Hawaiian boys sent to Turin, Italy, to study military tactics. There he became a social favorite, and induced Gina, daughter of Baron Sobrero, a Colonel in the Italian Army, to marry him. He represented that he was heir to the Hawaiian throne and promised his wife that she would be Queen.

When the couple reached Honolulu the wife had a fearful awakening. She found that her husband was really a Government ward, who had received his education at the nation's expense, and that he had no property. He was of mixed American and Hawaiian blood and had no special position. His wife at once left him and in November, 1895, the marriage was annulled in Rome Wilcox married again, his second wife being an Hawaijan, who asserts that she is a princess of the royal blood and now poses as a leader of the native party.

Wilcox became a revolutionist and trice to unseat King Kalakaua. He showed cowardice in a fight with the royal troops and was tried for treason, but through Liliuokalani's influence he escaped conviction. After Hawaii became a Territory he was elected the first delegate to Congress.

WON'T PAY COAL ASSESSMENT INDEPENDENT OPERATORS SHOW

SPIRIT OF REVOLT. Object to Paying Their Share of the Conciliation Board's Expenses-Say They Have Been Ignored Completely by the

Big Coal Companies Thus Far.

TAMAQUA, Pa., Oct. 24.-The strained relations which have existed between the independent coal operators and the big coal companies since the strike was settled last October will likely be brought to a head | RUN MADE TO PORTO RICO AND by the efforts of the Reading, the Delaware and Hudson, the Delaware and Lackawanna and the Erie companies, controlling the coal transporting roads and 75 per cent, of the coal production, to force the independents to pay part of the expenses

incurred by the conciliation board This the independents will refuse to do. They maintain that ever since the strike was settled they have not been consulted by the anthracite community of interest, that they have no voice in the naming of the operators' representatives on the con-

practically ignored by that body. To-day all the independent operators received letters from President Thomas of the Maine made an official call upon of the Erie Company requesting them to meet the heads of all the anthracite companies in the Jersey Central offices in New York on Monday, when "the question of providing funds for the payment of the operators share of the expenses of the conciliation board will be taken up."

When asked to-day whether they would be present at the meeting several inde-pendent operators of this place answered that they would not and intimated that they would refuse to pay any assessment that might be levied upon them. One of

the operators said:

During the last year all the independent burg, W. Va., to restrain the WestVirginia Rairoad Company from discriminating against that corporation, has opened a loophole for them through which they propose to escape. The decision fits the case of the independent operators to a nicety, Judge Goff having ruled that the defendant company must "deal with the kingston Coal Conpunyupon conditions". defendant company must "deal with the Kingston Coal Conp ny upon conditions as favor be as those given to all other shippers," and give to the company the full percentage of ears due it and move and will conclude the writing of its report them with all possible speed and despatch.

The largest individual operators in the anthracite region are the J. B. Markle Comprov, the Lehigh Coal and Navigation Company and Core Bros.

MAINE'S BOILERS WORK WELL

BACK AT 13.12 KNOTS. Part of the Time a Speed of 18 Knots Was Made-Niclausse Boilers Did Their Work Perfectly and Will Be Approved

by the Roard-Officials Pleased

FORT MONROE Va. Oct 21 -The battleship Maine arrived off Cape Hen y yesterday alternoon after a record breaking morning she steamed into Hampton Roads ciliation board, and that they have been and anchored off Newport News, not far from the Dolphin, which had Secretary Moody on board. Capt. E. H. C. Leutze the Secretary of the Navy and informed him of the excellent run made by the big battle-

The Maine's trip was for the purpose of testing the Niclausse boilers, which were severely criticised by former Engineer in Chief Meiville, who opposed their proposed installation in other battleships. Incitermined to ascertain what speed the Maine would make under natural conditions and without ferced drought.

The trip to Porto Rico and return was timed between Currituck light and Culebrita light, a total distance of about 2,400 been made to bear the greater part of the builden of the award of that body and of 15.12 knots, or 17.77 miles per hour. early next week. This report will approve in the the Niclausse boilers for use in battleships and will sustain the opinion of Lieutenaut-Commarder Partiett, chief engineer of the Maine, that the recent trouble with the Maire's boilers was through an automatic water gange attachment and not any defeet in the boilers. It was found that they worked perfectly and were easily handled notwithstarding that a large part of the

fire room force were green men.

The board will recommend to the Navy Department that the Maine be equipped with new evaporators, as it was found that these installed are not of the best type.
